# Virtual Programming

## Calling for speakers!

To showcase the climate work our members are doing and allow our community to network globally, we'll be starting up a virtual program in the fall.

It will consist of monthly sessions for an hour with two speakers from our community each time followed by virtual networking. If you're interested in speaking (no speaking experience necessary), please fill out the form below. We're also looking for a corporate sponsor to help finance the program, if you know an organization that might be interested, reach out to
